

## DESCRIPTION:

PowerPay offers two types of terminals through Verifone — the Nurit 2085 which is a retail credit machine and the Nurit 8000 which is wireless.

The Nurit 2085 is the complete payment management tool in an all-in-one package for fast, hassle-free transactions. Built for reliability and performance with a contemporary look that would complement almost any retail store environment. With large viewable buttons and a clear screen making it easy for merchants to read and navigate through the easy-to-use functions. Restaurant owners that require a tip function find this machine to be exactly what they are looking for.

## FEATURES:

- Fast 32 - bit Motorola microprocessor for quick transactions
- Backlit, easy-to-read graphical display enhances readability
- 32-key keypad includes programmable LCD soft keys and hot keys for one-touch access
- Generates customizable transaction reports for cost-saving accounting and business management
- Fast, quiet, easy-load thermal printer
- 2 – track magnetic stripe card reader (3-track optional)
